US Army PEO EIS Senior Operations Analyst

US Army PEO EIS

PEO EIS is a component of the office of the United States Assistant Secretary of the Army for Acquisition, Logistics, and Technology (ASA(ALT)) that enables information dominance by developing, acquiring, integrating and deploying information technology (IT) systems to meet the Army's demands today while preparing for the challenges of tomorrow. PEO EIS is responsible for program management (communications, logistics, medical, finance, personnel, training and procurement) of more than 30 Department of Defense (DOD) and Army acquisition programs across the business, warfighting and enterprise information environment mission areas.

MISSION CHALLENGE
Senior Operations Analyst

The goal was to evolve the dynamic PEO-EIS and APEO ERP environment, integrate a variety of missions, and ultimately support the Army's Warfighters. The following key initiatives were crucial to the success of the mission:

• Phase 1 Development and Implementation of CONOPS and Business Rules

• Strategic Planning and Facilitation Support

• Facilitation and Serving as the Technology Adoption, Organizational Change and Operations Management Subject Matter Expert (SME)

SOLUTION

Phase 1 CONOPS and Business Rules	Complete a detailed analysis, document findings and begin Phase 1 implementation of ERP CONOPS and Business Rules.
Operations Management SME Core Team Member	Develop the APEO ERP Battle Rhythm, automate and implement, manage scheduling and implementation for all APEO ERP meetings, briefs, operations, and APEO ERP Brigadier General Executive Calendar Operations.
Technology Adoption and Organization Change Management (OCM)	Evolve organization to meet the changing needs of the Warfighter and integrate new technologies and processes to give military customers the best advantage in the field.
Support the APEO ERP Integration Team	Help the team understand the critical role Technology Adoption and OCM play in the successful adoption of ERP solutions. Support the movement toward adoption of common software tools, licenses and infrastructure, and server critical role as the Technology Adoption OCM SME for ERP activities.
Defense Business Systems (DBS)	Take leading role managing large meetings with leadership regarding important initiatives such as PEO EIS Strategic Planning, APEO ERP Level of Effort (LOE) ERP Integration Strategic Plan Development, Study Advisory Group (SAG) Core Team Member and McKinsey Clean sheeting Operations and Management lead.
Strategic Planning and Facilitation	Support multiple PEO and APEO ERP Integration Briefings.
Synchronize Efforts Across APEO ERP Integration Priorities	Help to increase efficiency and effectiveness and identify and implement improved processes.

CONCLUSION

The RMR Technology Group team successfully supported the efforts to evolve the PEO-EIS and APEO ERP environment and gave critical direction and assistance as the Senior Operations Analyst. Through the efforts of the team, US Army PEO EIS was able to streamline their operations, implement vital technologies, and better support the changing needs of the Warfighter.
